

Case Update:

Surry County now has 442 confirmed cases of COVID-19 and 2 COVID-19 related deaths. The Centers for Disease Control and Prevention (CDC) has defined recovery from COVID-19 as resolution of fever without the use of fever reducing medications with progressive improvement or resolution of other symptoms. According to this definition, Surry County has 349 recoveries.

<u>Surry County Cases</u>	<u>Surry County Deaths</u>	<u>Surry County Recovered</u>	<u>NC Cases</u>	<u>NC Deaths</u>	<u>NC Tests Completed</u>	<u>US Cases</u>	<u>US Deaths</u>

Weekly Updates:

- NCCARE360—NC has created the nation’s first statewide infrastructure connecting healthcare and human services. NCCARE360 is a statewide technology platform that coordinates whole-person care uniting traditional healthcare settings and organizations that address non-medical drivers of health, such as food, housing, transportation, employment, and interpersonal safety. Anyone in North Carolina can request services and be connected to an accountable organization to support their immediate and long-term needs. NCCARE360 enables health and community-based organizations to make electronic referrals, communication in real time, securely share client information, and track outcomes together. North Carolinians who need assistance can search NCCARE360’s repository of more than 10,000 local services at nccare360.org/resources, access resources by calling 2-1-1, or complete an online form at nccare360.org/request-assistance.
- Because of the continued upward trends in COVID-19 related metrics, along with concern for both the public health and for our hospital capacity, North Carolina will remain in Phase 2 until at least Friday, July 17, 2020.
- North Carolina has adopted a face covering requirement to help slow the spread of COVID-19, making in mandatory for people to wear a cloth covering over your nose and mouth when they are indoor and in outdoor public places, where staying 6 feet from people who are not part of their households is impossible. Face coverings are a simple way to control this virus while we protect ourselves, our families, and other people around us. Employees and customers of retail businesses and restaurants,

as well as workers in manufacturing, construction, meat processing, and agriculture settings, must wear face coverings in those places.

- North Carolina has expanded the COVID-19 dashboard located at covid19.ncdhhs.gov/dashboard to include county-specific data on COVID-19 cases and deaths, including trends and demographic information by county. The updated dashboard also includes a new report on clusters of COVID-19 in childcare and school settings.

Protective Measures:

In order to further protect yourselves and your loved ones, we would like to remind you to:

- Avoid contact with people who are sick.
- Stay home when you are sick, except to get medical care.
- Cover your cough and sneezes with a tissue and dispose of the tissue.
- Clean frequently touched surfaces and objects daily (e.g., tables, countertops, cell phones, computers, light switches, doorknobs, and handles) using a household detergent and water.
- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing. If soap and water are not available, and if your hands are not visibly dirty use a hand sanitizer that contains at least 60% alcohol.
- CDC recommends wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain (e.g., grocery stores and pharmacies), **especially** in areas of significant community-based transmission
 - Cloth face coverings (not surgical masks or N95 respirators) should:
 - fit snugly but comfortably against the side of the face
 - be secured with ties or ear loops
 - include multiple layers of fabric
 - allow for breathing without restriction
 - be able to be laundered and machine dried without damage or change to shape

Further information about COVID-19:

Residents with general questions about COVID-19 can call NC 2-1-1 by dialing 2-1-1 or 888-892-1162. We'd also urge Surry County residents to seek information regarding COVID-19 from credible sources such as [NCDHHS.gov](https://ncdhhs.gov) or [CDC.gov](https://cdc.gov) or visit NCDHHS and CDC on Facebook or Twitter!
