

Extra Credit Grants

Most North Carolina families with children are eligible for a \$335 coronavirus relief payment to help with virtual schooling and childcare costs.

The \$335 payment is for individuals with a dependent child who was 16 or younger at the end of 2019. If you filed a 2019 North Carolina individual income tax return reporting a qualifying child, you'll get the payment automatically.

If you did not file a 2019 state return because your gross income for 2019 did not exceed the state's filing requirements for your filing status (generally \$10,000 per year if you are single and \$20,000 per year if you are married), **you may still be eligible for the \$335 payment. You must apply by October 15, 2020!**

Go the North Carolina Department of Revenue website at [NCDOR.gov](https://www.ncdor.gov) for details and to apply.
